Business Analyst

Summary:

- Business Analyst with 10 years of experience in dashboard development and data visualization projects, with hands-on expertise in migrating from OBIEE to Google Looker and similar BI tools.
- Strong background in healthcare data compliance regulations, ensuring adherence to industry standards while implementing BI solutions.
- Proficient in gathering and documenting complex business requirements, developing user stories, and leading BI tool migrations.
- Skilled in working with SQL and data modeling concepts, and experienced with visualization tools like Google Looker, Tableau, and PowerBI.

Professional Experience:

Citizens Bank, Johnston, RI

Business Analyst - Dashboard Development & Data Visualization
March 2023 - Present

- Managed the migration of dashboards from OBIEE to Google Looker, working closely with stakeholders to ensure data accuracy and compliance with healthcare regulations.
- Collaborated with data analysts and visualization specialists to convert business needs into precise technical specifications, ensuring a seamless transition to Google Looker.
- Developed and validated complex dashboard solutions to enhance reporting efficiency for healthcare-related data, ensuring compliance with data privacy regulations.
- Coordinated with cross-functional teams to document business requirements and develop clear user stories for development and testing teams.

Pfizer, Sanford, NC

Business Analyst - BI Tool Migration & Healthcare Data Compliance
April 2021 - February 2023

- Led the migration of business intelligence tools from OBIEE to Google Looker, ensuring compliance with healthcare data regulations and security standards.
- Worked closely with data engineers and IT teams to develop data models and visualization tools that met business needs and regulatory requirements.

- Documented complex business processes and requirements with precision, ensuring clarity and alignment with technical and business stakeholders.
- Participated in testing and validation activities, ensuring dashboards met business objectives and complied with relevant data privacy laws.

Deloitte, Fremont, CA

Business Analyst - Healthcare BI Projects

January 2019 - March 2021

- Spearheaded the development of healthcare-related dashboards using Tableau and PowerBI, ensuring compliance with healthcare data regulations.
- Acted as the primary liaison between business users and technical teams, gathering business requirements and translating them into actionable technical specifications.
- Developed SQL queries and worked closely with data engineers to ensure that the data models and dashboards adhered to healthcare compliance regulations.
- Managed user acceptance testing (UAT) and validated the accuracy of data in dashboards prior to deployment.

Robinhood, Menlo Park, CA

Business Analyst - Financial Services & BI Tools

January 2017 - December 2018

- Managed the migration of reporting systems and financial dashboards from OBIEE to Tableau, improving data visualization capabilities and operational efficiency.
- Collaborated with cross-functional teams to gather business requirements and convert them into functional dashboard designs.
- Developed and documented test cases, coordinated UAT, and ensured dashboards met business and regulatory requirements.

Global Logic Technologies, Hyderabad, India

Business Analyst - Data Migration & Reporting Tools

July 2013 - October 2016

- Led the migration of data reporting systems to new platforms, ensuring compliance with data security and regulatory standards.
- Worked with stakeholders to gather business requirements and develop dashboards using PowerBI and Tableau.
- Collaborated with development teams to execute test cases and validate dashboard functionality.
